

Resource 2

Are human beings essentially different from other animals?

Please listen to the stimulus material and then come up with your own question which must be submitted to the organisers before the event.

Click on the link to the Philosophy bites podcast interview of philosopher and Philosothon patron Professor Roger Scruton speak about Human beings and other animals.

[Roger Scruton on Human Nature](#)

Are human beings fundamentally different from other animals? [Roger Scruton](#) argues that we are, and that we need to think about ourselves in non-biological terms. He explains these ideas in conversation with Nigel Warburton.
